

Australia's largest dist

Where we are...

Some people may still think of us as a general carrier but in the past six years, we have changed...we have grown and matured into a true business partner, efficiently and innovatively managing logistics and distribution.

...and how we're setting tomorrow's standards

- continuous quality improvement
- national network by road, rail, sea and air
- comprehensive, creative logistics
- exceeding customer expectations
- specialised industry expertise
- capturing all benefits from restructuring and integration
- concentrating attention on financial performance
- developing service capabilities through the total supply chain
- building on balance sheet strength
- focusing on creating shareholder wealth
