TOLL OPENS ITS KEY QLD RAIL TERMINAL AT TOWNSVILLE

Toll's new state-of-the-art rail facility at Townsville welcomed its first train from Brisbane last week.

Eighteen months of planning, plus 12 months in construction, has seen the creation of this world class facility development, at a cost of approximately \$20m. Construction will shortly commence on a new distribution warehouse for QRX, train maintenance facilities and additional improvements will take the investment over \$30m.

Toll, in partnership with Pacific National, commenced running its own narrow gauge service into Cairns in March this year.

Rail linehaul services were previously supplied by Queensland Rail, but escalating prices and the need to improve service levels for our customers, necessitated Toll's decision to commence its own North Queensland service.

In addition, Toll, via its QRX division, will expand operations to include other major North Queensland centres.
